PROFESSIONAL SUMMARY

Recent Business Intelligence graduate from the International School of Business, Sfax, having completed the programme with Excellent distinction. Specialised in building end-to-end analytics pipelines, AI-powered applications, and interactive BI dashboards using Power BI, Python, SQL, and FastAPI. Proven ability to combine machine learning with intuitive data visualisation to deliver actionable business insights. Seeking roles in data analytics, business intelligence, or data engineering.

TECHNICAL SKILLS

Data Analytics & BI: Power BI, DAX, Power Query, Tableau, Excel, Data Visualization, Dashboard Design, KPI Reporting

Programming: Python (Pandas, NumPy, Scikit-learn), SQL, JavaScript, TypeScript

Machine Learning & AI: Random Forest, Isolation Forest, K-Means Clustering, NLP, Time-Series Forecasting, Deep Learning, RAG, Prompt Engineering

Data Engineering: ETL Pipelines, Data Warehousing, Kimball Star Schema, SCD Type 2, SQL Server 2022, BigQuery

Backend & APIs: FastAPI, RESTful APIs, SQLAlchemy ORM, Next.js, JWT Authentication, BCrypt, APScheduler

Cloud & Tools: AWS AI/ML Services, Git, Swagger, Whisper API, Claude API

WORK EXPERIENCE

Business Intelligence Intern - INET (Informatique.Net) Feb 2026 - Jun 2026

Sfax, Tunisia | Development Department

- Built INET RH, a four-layer HR BI platform (OLTP, Kimball star-schema DW, Power BI dashboards, ML predictive layer) covering attendance, leave, absence, and training for an SME — delivered end-to-end using Scrum.
- Designed a 16-table OLTP schema + Kimball DW (3 facts, 3 dims, SCD-2) with a RESTful API (Python, FastAPI, SQLAlchemy, SQL Server 2022) and an idempotent ETL pipeline — cutting HR KPI compilation from ~4 h/week to 2 minutes.
- Delivered a predictive layer: Random Forest ($F1=0.62$, $AUC=0.79$) + Isolation Forest anomaly detection, automated via 5-job APScheduler; reduced leave-approval time from 48 hours to under 2 minutes.
- Built a role-based Next.js/TypeScript app with 3 portals, JWT auth, BCrypt hashing, and a 5-page Power BI/DAX report with embedded web dashboards.

EDUCATION

Bachelor in Business Intelligence Sep 2023 - Jun 2026

International School of Business (ISB) | Sfax, Tunisia

- Final Year Project:** Graduated with Excellent Distinction

Baccalaureate in Computer Science Sep 2019 - Jun 2023

Lycee Monji Slim | Sfax, Tunisia

PROJECTS

Retail Intelligence Platform 2025

End-to-end retail analytics pipeline with POS data ingestion, time-series sales forecasting, Power BI KPI dashboard, inventory optimisation, and customer segmentation using RFM analysis and K-Means clustering on 50,000+ transactions.

GitHub: github.com/elbechoo/retail-intelligence-platform

Football Analytics Engine²⁰²⁵

Data pipeline for football match analysis covering xG modeling, player clustering, referee bias detection, and match outcome prediction using a Random Forest classifier (55.3% accuracy) on 1,140 matches.

GitHub: github.com/elbechoo/football-analytics-engine

SmartDoc AI²⁰²⁵

AI-powered document processing tool that classifies, summarises, and extracts structured data from unstructured PDF/Word documents using NLP pipelines, Claude API, multi-turn memory, and streaming.

GitHub: github.com/elbechoo/smartdoc-ai

AI Meeting Summarizer²⁰²⁵

SaaS platform that transcribes audio/video meetings via Whisper API and auto-generates structured summaries, action items, and follow-up emails using Claude AI. Built with FastAPI and Next.js.

GitHub: github.com/elbechoo/meeting-summarizer

CERTIFICATIONS

- AWS AI Practitioner - Udacity / AWS (Nov 2025) [\[Certificate\]](#)
- Data Analysis with Python - IBM / Cognitive Class (Nov 2025) [\[Certificate\]](#)
- Advanced SQL - Kaggle (Nov 2025) [\[Certificate\]](#)
- Getting Started with Deep Learning - NVIDIA (May 2026) [\[Certificate\]](#)
- IELTS Academic - British Council / IDP | Band Score: 5.5 (Apr 2026) [\[Certificate\]](#)

ACTIVITIES & COMPETITIONS

AfroTech Intelligence Hackathon - IEEE^{Nov 2024}

Competed in a 24-hour AI sprint. Built and deployed a data-driven solution using Python and machine learning pipelines.
